Toledo Street Car Service to Start This Afternoon

TOLEDO, Dec. 5 .- After walking and riding in busses for 27 days at 10 cents or more per ride, Toledo will get back today to the old system of using street cars as a means of transportation.

Resumption of service will begin at 3:30 p. m., it was announced this morning by Henry L. Doherty, who stored his vehicles in Michigan when the people sustained a council ouster ordinance at the last election. Interurbans will begin using the streets at 6 p. m.

The fare is to be the same as when the cars were taken away six cents and two cents for transfer.

The busses which began operating with the cessation of car service are expected to retire gradually as the riders become accustomed to the electric conveyances. If the gasoline cars continue to operate and it causes too much competition the street car service will be reduced on certain lines, under a provision granted in United States District

DR. HEDLAND TALKS

In Connection With Showing of Chinese Studies.

BY H. E. H.

Agreeably surprising, even to the good women themselves who have labored so earnestly to make their "Art Redivivus" an epoch in the aesthetic movement on among the Federated bodies, the opening of Lima's Salon and lecture season at [the Y. M. C. A., Monday evening was an auspicious event.

The capacity of the lecture room found Dr. Hedland smiling and bland like the patient people he portrayed, and a strangely attractive coterie of shuffling feminity, hair coiffed high and almond eyed; indeed one had to look the second time to recognize in the exotic creatures in gorgeous Mandarin robes and the poculiarly fascinating welcome bobbed at them such familiar ones of focal modely. as Mrs. Branson Startey Holmes, Mrs. C. E. Schett, Mrs. Will Daniels, Mr. H. H. Starrett, Mrs. E. A. Williams, tthe Chairmant, Mrs. W. E. Woodward, Mrs. Mack Colt and Missen Margaret Jacobs and Bess Kelly,

One could fancy only the miasmatic, sweetly penetrating incense and the bland innocently voiced native tongue mising to complete a very Chinese-like atmosphere. Those who listened to the good doctor's fascinating resume of the art doings of that little understood race were amply repaid. And in the display of the native art, water colors, wonderfoll dainty transcriptions of the flowery kingdom on silk and their proulair fibery paper-those who would carry away a memory of great educational value. Some of the pictures are three, and four hunderd years old. There were some land scapes, and some portraits also; each picture when viewed in the light of Pr. Hedland's illuminating talk taking on an added value. And our learned bow to enjoy Chinese art, too, listening to the bectures, You can't take in the whole of a Chinese work of art at a glance, and envision a story as one does the art of the Occident.

Listen to the good Doctor's advice; "You must" says he, "begin at the lower right hand corner, or per-i chance at the lower left hand, of your subject; then lot your eyes; gradually travel upward. Only in that way can you get the full values of the Chinese picture,"

In the arrangement of the Chinese art the committee was a bit nut; because to properly display these Dr Hedland said the room should have a fifteen foot coiling at least. The exhibition rooms have ceiling a something like cleven feet high. But the effect was not had,

CHAIRMAN DURBIN MAKES ATTACK ON

Democratic Leader Assails William Cooper Proctor for Fund-Raising Plans.

POLICIES COMPARED

Out Republican Points Pennsylvania Has More Radicalism Than Ohio.

COLUMBUS, Dec. 1 .- An open letter fairly sizzling with denunciation and invective, even more so than a former letter on the same subject, has been issued by W. W. parbin, chairman of the Democratic state executive committee, adddressed to William Cooper Proctor of Cincinnati, chairman; of the "Republican organization in Ohio to raise funds for the next presidential campaign." Durbin pays his par-ticular respects to Proctor's statements relative to "our fight against the radical un-American elements in this country" and that "It is not a political problem as much as it is a commercial one." These statements were used by Proctor in urging business men to contribute generously to the Republican campaign fund.

"I have read with great interest your reply to my charge that you are creating a slush fund state which is to be used for the purchase of the presidency in 1920, Durbin says in his letter.
"You clearly imply, if you do not

directly state in the course of the interview, that in order to avert the radicalism which you fear, a Republican administration must be elected in Washington. That carries with it the inference that the Democratic party is the party of radicalism. COMPARES STATES.

If you will cast your eyes above the horizon of Cincinnati and shake the prejudice out of your mind, you will observe that the governor of this state, a Democrat, has mainorderly government and fought radicalism to a standstill. Just across the line in Pennyslvania, terrorism has been prevalent for months, and eastern periodicals have characterized the contrasting conditions by designating Pennsylvania as 'Siberia' and Ohio as 'America. The difference between the policy of the Republican governor in Pennsylvania and the Democratic governor in Ohlo is the very essential difference that the events of our industrial and governmental history have marked in the last 25 years. You would make government the instrument of capital and become by so doing a factory of Bolshevism that would make Lenine and Trotzky in odious comparison. theory and practice of the Democratic governor, on the other hand, had made the state government the, agent of the law, acting without fear or favor.

Holds Republicans Responsible. Durbin continues his letter by charging that the Republican party

ar boring pro-German that such are participating "in the counsels of Republican leadership. Anent the "Un-American radical peril which Proctor says his party is fighting. Durbin makes the direct charge that "your political associates," the capitalists who have contributed to Republican campaign funds, are responsible for the importation of large numbers of aliens who are now menacing Americanism living because just as fast as they became Americans in fact their wages would have increased."

"If you are sincere, Mr. Proc-tor," says Durbin, "in your desire to stamp out radicalism, then why do you not fumigate the Republican roost, because you are harboring. and you know it, pro-Germans who are not only a part of the strength which you are marshaling against the present administration, but they participate in the counsels of Republican leadership. If you are a patriot instead of a partisan, then why did you, in the very midst of the war, in the campaign of 1918, spend your money and your effort to elect the Republican candidate for governor of Ohio, who would, in the face of present emergencies. have been as feeble as a child? No one knows this better than you.

Asks Questions. "Furthermore whence comes this radicalism except from the great mass of aliens now in this country." Who was it that brought them here except groups of capitalists who throughout the years, Mr. Proctor; have laid down their campaign contributions beside your own for the purpose of buying Republican vic-tory? They were imported in the first instance because they would work for low wager. They were not educated in Americanism nor taught the standards of American living because just as fast as they became Americans in fact their wages would have increased. Your political assoriates sowed the seed which has brought the harvest of radicalism and now you hold your hands to high heaven and proclaim that the Democratic party is responsible for

To attempt to convey to you the details in connection with the garments offered would be futile. All we can do here is to give a word sketch of the fabrics and type of garments represented, and depend upon your knowledge of the unusual values offered by the Suit Section of Lima's Big Store—to bring you here early Saturday morning-

-each price representing a liberal discount! -Every garment "correct" in fabric, mode, coloring and adornment.

-Suits of Silvertone, Broadcloth, Tricotine, Serge, Velour and Peach Bloom-in practically every modish shade-

-Who can look upon Christmas shopping as a "bore" or a "duty" or a "painful neces ity," or a stupid task or as anything but just pure joy!

When a store is so hig and so ready and so underselling—and when gifts are so many

and when everybody loves that sort of gift so well, there's not a thing to do but just look a lot, think a little and then decide!

We have a thousand and more ideas for gifts right on the tips of our tongues, too, just itching to tumble off into your ears—if you'll let us help you. The days will fly by on wings.

We predict that this Christmas will see many gifts of pretty

BLOUSES

AMUSEMENTS

This is the last night of the big double entertainment at the Faurot which has made such a phenomenal jit this week. The Kilties give their last two concerts at 7 and 9 p. m. while the pictures, which include Robert Warwick and a star cast in the Paramount-Arteraft production, "Told in the Hills," Topics of the Day and a charming Paramount-Post Nature picture. "Raindrops," start at 5, 7:45 and 9:45.

The Kilties give an entirely different program from that of the first two days of their engagement, with new sorgs, new dances and both classic and popular selections by the band. Mr. Warwick is supported by a cast that includes such prime favorites as Ann Little, Wanda Hawley and Tom Forman. It's a great show at the prices, which are very moderate.

Give Furniture For Cnristmas--The Gift Enduring. The Ideal Gift, a

Mybest Christmas giftmore leisure all year"

Every home should have its Hoosier, for every housewife deserves the many benefits it brings. And there's no more fitting time to get it than at the Christmas season.

The gift of a labor-saving Hoosier expresses the intimate thoughtfulness every home maker appreciates. It makes her work easier and more enjoyable all year. It makes her workshop more attractive and adds to the pride of home.

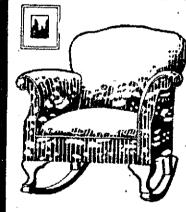

Surrounded by many patented conveniences found only in the Hoosier, the housewife sits at her

work instead of walking to and fro. Thus she saves miles of steps.

Because utensits and supplies are centralized in the Hoosier, much work is saved. By preventing waste in measuring and mixing, foods are saved.

If your kitchen still tacks this greatest convenience when Christmas has passed, come and seea demonstration. But don't hesitate to let it be known that a Hoosier for Christmas would please

RAILROAD ENGINEERS OUT WITH STATEMEN

Men in the Cabs From Many States Declare Tanlac Conserves Health of Railroad Men and Makes Them Fit for Responsible Duties in Most Nerve-Racking Service.

TO calling demands a clearer brain, steadier nerves, a more perperfect state of health than that of a raily and engineer. The safety of thousands depends on guarding his health, which is as important to the public as the efficiency of his engine. Every engineer realizes this enormous responsibility, he dares not take chances with so important a matter. That is why so many of them are using Tanlac-it steadies the nerves, clears the brain, corrects mdigestion, strengthens he arm, insures the safety of the traveler. and keeps him on his job.

Otherwise Local Conditions Are Remaining About The Same.

"There is enough coal at the water works to last until tomorrow uoon," said Service Director Metheany, when questioned Friday as to the fuel situation. After that time it will be necessary to secure confrom the railroads or industrial plants as a last resort to keep the pumps working, he said.

No information has been received from nine cars of coal in transit, according to the service director, alhough the regional director has promised to take care of the situa-

"The Ohio Electric has received no instructions as to the curtailment of traffic, or the use of power 'or industrial purposes," said Resdent Manager J. B. Dugan, when uestioned Friday, "and additional coal has been received today suficient to take care of immediate lemands. We anticipate no danger f a shut-down, but a curtailment of traffic would probably follow in ase similiar steps are taken in the ase of steam roads."

Latest reports are to the leffec' hat a curtailment of traffic on team roads will be ordered folowing a meeting of the railroad dministration in New York, Fri-

was born in Paris on the first of January, 1834. His father was a plever, versatile; writer of verse, prose vandeville and drama, bis unele, Fromantal Halevy, was for sence the double and early connection of Ludovic with the Parlaian stage. At the age of 6 he might have been seen playing in that Proyer de ia Danse" with which he was to make

his readers so familiar. At 18 he joined the ranks of the French Administration and occupied various mosts, the last being that of secretaire reductor to the Corps Legislatif. In that capacity he enjoyed the special favor and friendship of the famous Duke of Morny, then the president of the assembly.

It has been claimed that Zola had presented to the public an almost exclusive combination of bad men and women; in L. Abbo Constantin' all are kind and good, and the change was eagerly welcomed by the reading public. Some enthusiasts still maintain that the Abbe will rank per manently in literature with the "Vi car of Wakefield.

Such was the story. But when young Mrs. Scott and her locautiful sister arrived, to take possession of the Castle and called immediately upon the Abbe, he learned a different tale. Religious generous, amiable and levable they

And they were certainly beautiful, particularly the younger sister. Bettina Percival. Both had the same large eyes, black, laughing and gay, and the same hair, not red but fair, with golden shades which daintily danced in the light of the sun.

At the Cure's little home they met Jean Reynaud, the son of that gallant Doctor of the village who, while advancing with the soldiers in the war of 1870 to carry on his work of mercy side by side with his dear old friend the Abbe, had suddenly been struck by a bullet and killed on the Jean, inheriting the noble traits of his father, was beloved by the whole village.

But he was poor while the Amer ican sisters were immeasurably rich. As acquaintances and friendships grew, pleasing it was to the gentle, lovable old Cure to learn that his new parishioners were most anxious to extend their benefactions among the poor in the hamlet, asking him, indeed, to be their medium. And it delighted him to learn that those stories about begging in the street and questionable life

They had indeed, been poor unti an inherited silver mine made them fabulously rich. Now they had hosts of admirers-Mrs. Scott because she was frankly flirtatious; and Bettina because, as she realized, the fortune hunters-thirty-four of them she counted, including a French Inike and a Spanish Noble-sought her wealth. But, through it all, they retained their genuine simplicity and sweetness of heart.

And when, one day, they all weat over with Jean to visit the little church, and Bettina at the organ played a reverie of Chopin, good genthe Abbe Constantin's heart was filled with such joy that the tears came to his eyes.

But all this left a deep problem in Jean's mind -- "Which of the two sisters is the prettier?" At first he was convinced that it was the connettish Mrs. Scott who charmed him the more; then he would see Bettina, smiling and blushing amid the sunliclouds of her floating hair, and he would declare to himself "I was mistaken, the prettier was Miss Percival.

So, in the confusion of his meditations, he would say. "Is it possible that I have fallen madly in love at: first sight? No: one might fall in love with a woman, but not with two i wemen at once.''

The days went on and Jean and Bellina were often thrown into each other's company. What resulted is best pictured in Miss Percival's own remark to her sister, when one day she exclaimed:

"He is the first man, positively the first, in whose eyes I have not read 'Oh how glad I should be to

Big Money Without Effort---

Of all industrial investments, Rubber stocks have shown the largest earnings during the past ten years. Reports show that one company earned \$60,000.00 for every \$1,000.00 invested. Think of it! If you

had invested \$500.00 in such a company, your profits would have been \$30,000.00

It is commonplace for rubber investments to double the money of stockholders.

Opportunities for such investments are rare. Along with the possibility of big profits, there must be safety. There should be tangible assets in back of your stock.

Here's One of Your Rare Opportunities:

The Ohio State Rubber Tire Company of Port Clinton is offering a limited amount of its seven per cent cumulative preferred stock at \$10.00 per share, with a 20 per cent bonus of common stock.

The Company is incorporated under the laws of Ohio for \$1,000,000.00, and the sale of its stock is conducted under a license from the Ohio Department of Securities.

There is safety in the preferred stock of the Company because:

The Company owns its own excellent plant.

Machinery and equipment is of the best, all paid for and installed.

The warehouses of Company contain an advance stock of crude rubber, gum and other raw materials.

Present factories occupy site of seven acres with twenty-seven more under option for future buildings.

There are possibilities for big profits in the common stock because:

The scientific arrangement of Ohio State factories insures low production cost.

The Ohio State Tire is a quality product.

Present demands for good rubber tires far exceed the supply.

The market is permanent and ever-increasing.

Offers have been made for the Ohio State output for years in the future.

The management is experienced, capable and trustworthy.

The Ohio State Rubber Tire Company PORT CLINTON, OHIO

We invite the fullest investigation. We urge you to visit our factory at Port Clinton. We are proud of it. Cut out and mail the coupon today.

For once I had no ready alibi, I could only drop my eyes and play with the chain of my mesh bag.

"Each man is THE man while he lasts. That's the answer to me, sn't it Beth?" I answered finally when my sense of humor had come to my rescue.

Mrs Carlton came over to rest one slender hand on my shoulders. With

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Ohve Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and

safe instead of severe and irritating. No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Ohve Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among pa-tients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 25c.

LXXXXIV .- I LEARN SOMETHING the other she tilted up my chin and looked into my eyes.

ginning to understand life. There is a period in every woman's life when she makes the transition from girlhood and courtship, to womanhood and wifehood, when she learns to relinquish the admiration of many men for the adoration of one. It is a difficult period, when her mind and heart are the scene of a conflict between Nature and her own personal desires. But when Nature has won, as she always does, the infinite of confession, "Oh, why couldn't he peace is sufficient reward for the have come before I was married to sacrifice. This tunnel would carry water from the Mediterranean to the western slopes of the lower end of the Jordan Valley. Thence the water would pass through pipes down to the Dead Sea, where a power plant would transform the water power into electricity, to be distributed as light and power through the country. This power would be used to drive a pumping station at the southern end of the Sea of Galilee (Lake Gennesaret).

Bankers and Scientist See Time Opportune to Conserve Coal.

NEW YORK, -- Steps for the formation of an association to arge development of all water power of the United States estimated at 100,000 .-000 horsenower, with an annual value of \$5,000,000.000, were taken at a luncheon today of twelve scientists and leaders in banking and industry.

The government will be asked to take the initiative and private cap-Ital would be enlisted. The promoters regard the time as opportune because of the coal strike, the high cost of living, and the newsprint shortage, in connection with which the American Newspaper Publishers' Association has urged that congress facilitate water power de-

Those at the luncheon included: L. B. Palmer, manager of the News-Publishers' Association: Foster Peabody, philanthropist and banker; Charles H. ingersoll, manufacturer; E. K. Hall, vice president of the American Telcohone and Telegraph Co., and Dr. Edward G. Acheson, scientist.

BAD HANDLING WOOL. It cost certain Ohio wool-growers nearly one-half million dollars this year to be careless in the handling, of their wool, according to J. F. Walker, secretary of the Ohio Woolgrowers' Association. Through this organization 5,400 growers marketed co-operatively 2,050,000 pounds of wool. Although there are but few staple grades of wool, 37 different grades were found in the clip offered.
